

## Bravilor Novo

The Bravilor Novo was developed as a commercial grade machine to serve freshly brewed filter coffee, quickly and without the usage of water mains. The Novo brews directly into a glass decanter of 1.7 Litres. The two self-regulating hot plates of the Novo keep the coffee at the right temperature. The Novo is user-friendly and does not require a lot of maintenance. Thanks to the manual-fill water system you can place the Novo anywhere!

- 2 decanters of 1.7 L (24 cups)
- The self-regulating functionality ensures the perfect coffee temperature according to the capacity inside the decanters.
- Each hot plate can be turned on or off independently
- Optional hot plate
