

Bologna 2 Group

The Bologna 2 Group benefits from all the top-class skills, innovative design and state of the art production methods that this world-renowned manufacturer has to offer. The Bologna 2 Group will make a stunning addition to any bar, restaurant or coffee shop for a surprisingly low level of investment.

All have large capacity boilers, high-powered elements and are hand built to the highest standards using only the finest stainless steel, copper and brass.

- 2 group models require only a standard 240v
- 13amp power supply

- 120 mm group height clearance to accommodate taller or take-out cups.
- Thermosyphonic heat exchangers within the boiler ensure that each group is kept constantly hot for perfect and consistent coffee extraction.
- Optional ESE pod and capsule adaptor available on request.
- Cups per/ Hour: 240/400
- Height (mm): 535
- Width (mm): 580
- Depth (mm): 500
- Weight (Kg): 55
- Boiler Capacity: 10L
- Element Rating: 2.8kw/13Amp
- Hot Water Per Hour: 40/50L
